Superba™ is Aker BioMarine's brand name for krill oil products for the human market.

Superba™ is rich in Omega-3 phospholipids and the antioxidant astaxanthin — both recognized for their health-promoting benefits. The phospholipids and astaxanthin found in krill promote physical and mental health.

Superba Krill Caps is a brand new krill concentrate, which is rich in Omega-3 phospholipids. The krill concentrate is produced on board the factory trawler Saga Sea. Superba Krill Caps is a capsulated krill product, which is in addition to Aker BioMarine's Superba™ krill oil. The new krill concentrate tablet will be sold through a cost-effective "direct-to-consumer" model in the United States from third quarter of 2009.
